

My Neighborhood's Ecosystem

What lives in your neighborhood's ecosystem?

1. Explore your neighborhood, find 3 living things to study. (Try to find at least one plant and animal)
2. Create a scientific sketch of each living thing. (Remember to start with shapes, then add details)
3. To help you identify living things, download [SEEK](#) application.

My Neighborhood's Ecosystem

How are the living things interconnected in your neighborhood's ecosystem?

Using the information you collected about the living things, draw or write a food web for your neighborhood's ecosystem. Think about what your living things eat or if they are being eaten by something...

A large, empty rectangular box with a thin black border, intended for students to draw or write a food web for their neighborhood's ecosystem.
