

Monarch Origami

Materials

Butterfly print-out (page 2)
Scissors

Directions

1. Print and cut out one of the butterfly origami squares on page 2. Begin with the printed side facing down.
2. Refer to the images below. Make creases by folding the square in half diagonally, first one way and then the other way. Then, fold the square in half to make a rectangle.

3. Now lay the square flat with the printed side facing up. Push in both sides, as shown in the photo below. Fold it flat to make a triangle shape. Lastly, fold over the corners labeled A and B.
